SUMMARY

AI and operations professional with experience implementing AI-enabled systems, training professionals in the practical use of Claude, and translating complex organizational challenges into scalable operational solutions. Experienced supporting mission driven organizations through workflow design, process improvement, research, and stakeholder education. Self-directed learner who has independently adopted AI tools and applied them to operational, educational, and strategic challenges across healthcare and workforce development settings.

SKILLS

Prompt Engineering • AI Workflow Design • Responsible AI Use • Workflow Design and Automation • Systems Thinking • Process Improvement • Root Cause Analysis • SOP Development • Adult Education and Training • Research and Analysis • Project Coordination • Stakeholder Communication • Solution Scoping • Operational Documentation

ANTHROPIC TRAINING

Completed: AI Fluency: Framework and Foundations • Claude Platform 101

EXPERIENCE

Corporate Strategy Extern | Extern

Jun 2026

- Evaluated Molina Healthcare using Eric Ries's Incorruptible framework, leveraging Claude to synthesize complex governance and operational information into executive level strategic recommendations on mission alignment and long term organizational sustainability.
- Conducted structured analysis across four diagnostic lenses; presenting findings directly to Eric Ries.

Operations and AI Systems Coordinator | Femme and Them, PLLC | Part time

Oct 2025 – Jun 2026

- Leveraged Claude and Google Apps Script to design and deploy AI-assisted operational systems that streamlined intake, referral coordination, and workforce workflows for a 10+ clinician behavioral health practice, creating sustainable infrastructure that remains in active use after implementation.
- Scoped, built, documented, and implemented operational systems while supporting organizational adoption through training, documentation, and knowledge transfer, ensuring tools could be maintained independently after departure.
- Owned end to end operations for a trans, queer, and neurodiversity affirming behavioral health practice: intake, scheduling, referral coordination, client communications, and administrative infrastructure.
- Led workforce development for 10+ team members, creating SOPs, asynchronous training modules, and onboarding programs covering clinical workflows and operational procedures.

Instructional Associate | General Assembly | Part time

Apr 2025 – Oct 2025

- Taught 30+ professionals per cohort to effectively use Claude for research, content development, workflow improvement, and problem solving, helping learners build practical AI fluency and responsible usage habits.
- Developed original curriculum from research through synthesis to fill gaps in an incomplete course, translating emerging AI capabilities into accessible, applied workplace workflows through live instruction and hands on coaching.

Strategy Consulting and Operations Extern | Institute of Mental Health (via Extern)

Feb 2026 – Apr 2026

- Analyzed clinical workflows across an acute mental health hospital; applied root cause analysis to produce structured recommendations for improving intake, care coordination, and service delivery.

Office Assistant | South Puget Sound Community College | Part time

Dec 2021 – Oct 2022

- Supported 150+ students navigating systemic barriers through the IGNITE retention initiative; handled scheduling, records management, and student facing communications within the Diversity, Equity, and Inclusion Center.

EDUCATION

BS Healthcare Administration | Western Governors University

In Progress

AAS Accounting | South Puget Sound Community College

Graduated
